

Practical No. 6A – T6

To design and develop web pages using HTML form and input elements

1. Accessing webpage on localhost using XAMPP web server :

A screenshot of a web browser displaying a customer feedback form for "PARADISE TRAVEL". The browser's address bar shows "localhost:8081/Customer_Feedback/". The form is titled "PARADISE TRAVEL" in red and "Customer Feedback Form" in black. It includes input fields for "First Name", "Last Name", and "Mail Id", each with an example value. There is a "Country" dropdown menu, and three dropdown menus for "Level of satisfaction", "Tour content", and "Quality of presenters", all set to "Very good". An "Overall rating of the tour" section shows a radio button selected for "1" out of 5. A "Suggestions" text area contains the placeholder "Any idea for the next tour..". A "Comments" text area contains the placeholder "Write something..". The form is flanked by two scenic images of tropical beaches.

A second screenshot of the same web browser, showing the feedback form after some changes. The "Mail Id" field now contains "Example : kumbhardipali96@gmail.com". The "Country" dropdown is still "Select Country". The "Level of satisfaction", "Tour content", and "Quality of presenters" dropdowns remain "Very good". The "Overall rating of the tour" still shows "1" selected. The "Suggestions" and "Comments" text areas are the same. A blue "Submit" button has appeared at the bottom right of the form. Below the form, a red message reads: "We appreciate your trust, and we will do our best to continue to give you the kind of service you deserve." The browser's address bar still shows "localhost:8081/Customer_Feedback/".

2. Accessing webpage in LAN using XAMPP web server :

8:35   VoLTE 4G  28% 

192.168.43.93:8081/Cu

PARADISE TRAVEL

Customer Feedback Form

First Name :

Last Name :

Mail Id :

Country :

Level of satisfaction :

Tour content :

Quality of presenters :

Overall rating of the tour : ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Suggestions :

Comments :

We appreciate your trust, and we will do our best to continue to give you the kind of service you deserve.

3. Uploading on Github :
